RESEARCH INTERESTS

- Marketing and Industrialization

TEACHING EXPERIENCE

- Total 26 Years (UG and PG Classes)

BRIEF ABOUT THE Ph.D. WORK

Ph.D. Topic: ***"Commercial Viability and Strategy for Success of Agro-based Industries in U.P. Hills".***

Industrialization is the base of economic growth. The hill region of Uttarakhand is quite deficient in terms of industrialization. Except a few tradition crafts and tourism to some extent, the agriculture is the main economic activity of the region, even the traditional farming is also subsistence in nature. The economic opportunities are quite limited and people have to migrate from region in search of menial jobs. For economic development and self-sufficiency of this future state identification of some potential industries is required which could provide a base to the entrepreneurial development in the region. In view of rich bio-diversity of the region agro-based industries are must logically look into for this purpose. The main objective of the study was to identify the commercially viable agriculture industries in hill region.

EDUCATION

1. **Ph. D. (Commerce)** from H.N.B. Garhwal University, Srinagar Garhwal in 2000.
